EDUCATION

Indian Institute of Information Technology, Nagpur, India

Dec 2020 – May 2024

B.Tech in CSE - **CGPA - 7.46**

Nagpur, India

TECHNICAL SKILLS

Languages: C, C++, JavaScript, HTML, CSS, Python

Developer Tools: VS Code, Andriod Studio, Pycharm

Technologies/Frameworks: GitHub, ReactJS, NodeJS, ExpressJS, Git, MongoDB, Flask

PROJECTS

Baat-Cheet [code](#) | [MongoDB, Express, ReactJS and NodeJS](#)

- Developed a real-time chat application to facilitate a seamless and interactive chatting experience with features for text-based messaging and real-time message updates.
- Key features of the project include real-time chat functionality, user **authentication**, the ability to send and receive messages instantly with **Socket.io**, and message time using **timeago.js**.
- Technologies employed **MongoDB** for database, **ExpressJS**, **NodeJS** in backend and **ReactJS**.

Food-Box [code](#) | [MongoDB, Express, ReactJS and NodeJS](#)

- Developed a feature-rich food delivery application, provides a convenient platform for ordering and delivering
- Application as features including registration and authentication, payment, and **order placement**
- Technologies includes **ReactJS** in frontend, backend **ExpressJS NodeJS**, and using **JWT** for encryption, **MongoDB** for database.

Activity-Tracker [code](#) | [MongoDB, Express, ReactJS and NodeJS](#)

- Developed a user friendly platform, that help users to keep the track of their daily tasks.
- Key features such as responsive website along with seamless **CRUD** operations.
- User friendly website is build with **ReactJS**, powered by **NodeJS** server, **Express** in backend with **MongoDB** database.

ACHIEVEMENTS

- Solved 450+ DSA problems on Leetcode.
- Global rank 357 at Codechef Starters 83 Division 3.
- Global rank 407 at Codechef Starters 60 Division 3

COURSEWORK

- | | |
|-------------------------------------|--|
| • Data Structures | • Database Management System (DBMS) |
| • Operating Systems | • Object Oriented Programming Concepts |
| • Design and Analysis of Algorithms | • Computer Networks |
